Unique Tented Accommodations

The Concept

Modular Interlocking Design

With our fast build universal joining system, pre- fabricated modular elements simply lock together to assemble the frame. This makes it possible for the structure to be erected quickly (Couple of days) by a small team with basic training, keeping installation costs to a minimum.

As the structure is considered temporary and removable, costly and time-consuming planning approvals are usually not required.

We provide three tiers of structure types to match your needs, from budget-friendly to ultra-durable - **Laminated Pine, RhinoWood® & Steel.**

Units are easily broken down and packed neatly, allowing for them to be easily transported to remote locations.

Adjustable Levelling Legs

Units are elevated on galvanized steel feet and levelled by adjusting the height of each foot. This removes the need for foundations and allows for our units to be installed on uneven terrains.

The elevated unit also means that the existing environment remains intact and if the units are to be removed it will leave the site untouched and leave no trace.

Interchangeable Walls & Floors

Our modular product allows for an interchangeable wall panel system which gives you the freedom to customize your unit to respond to its site. This unique feature allows for hassle-free maintenance when required. Walls are designed to pop in and out without compromising the frame and therefore can be repaired or replaced with minimal downtime.

The ‘LEGO’ design gives you the ability to work with our specialized design team to customize and create a floorplan that best compliments both your aesthetic and accommodation spatial needs.

Organic Stretch Fabric

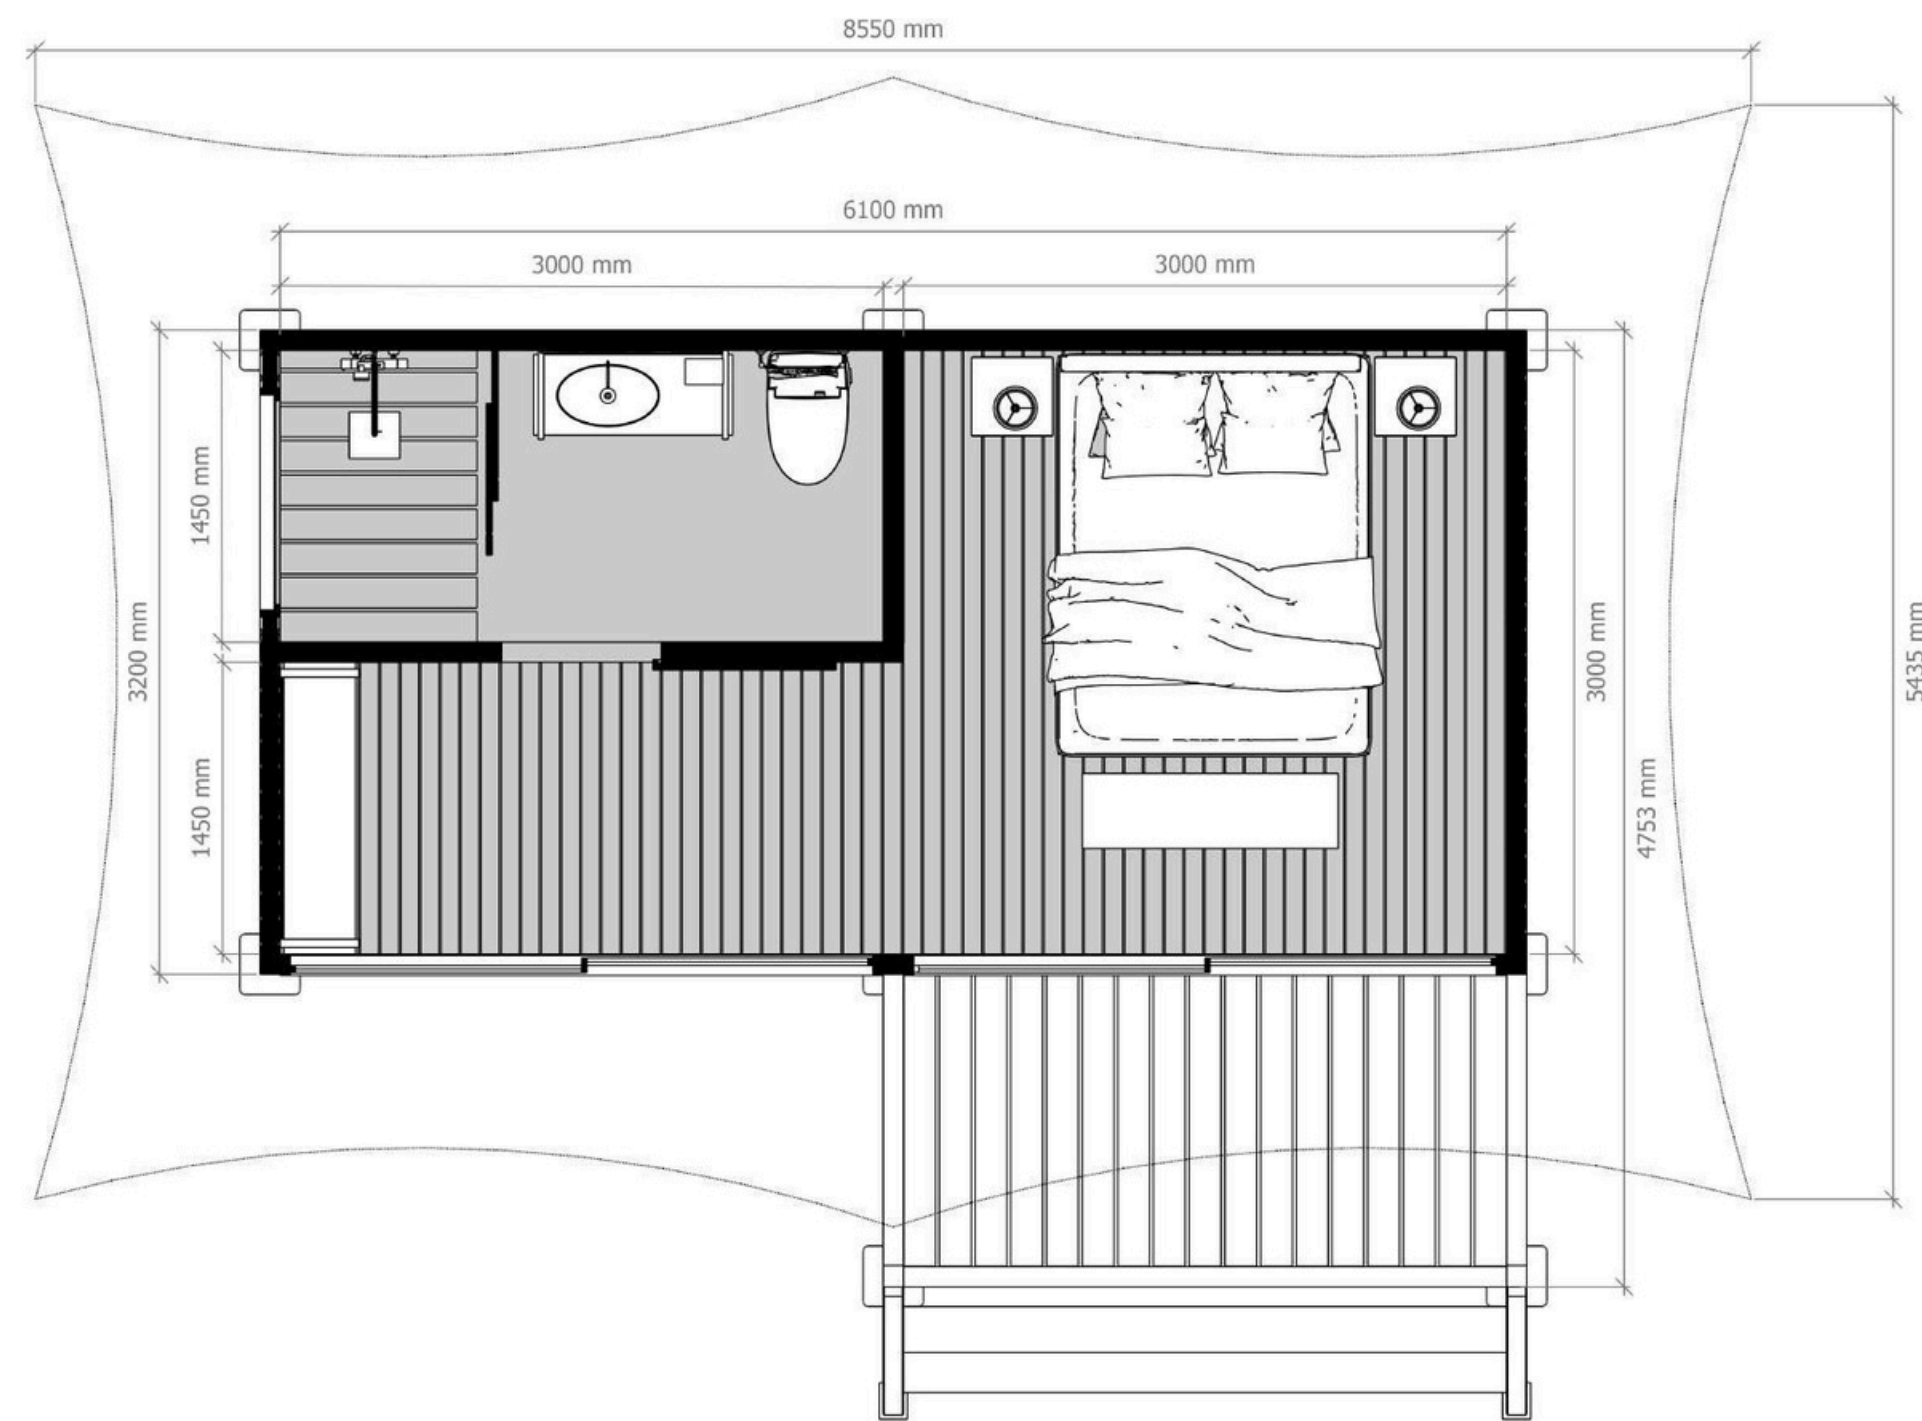

Our premium-grade fabric specification delivers all essential performance criteria, and meets all global fire, water & engineering compliance standards.

The covering Stretch tent allows our units to achieve a unique aesthetic whilst completely protecting the Modular Organic Tenthouse from the elements.

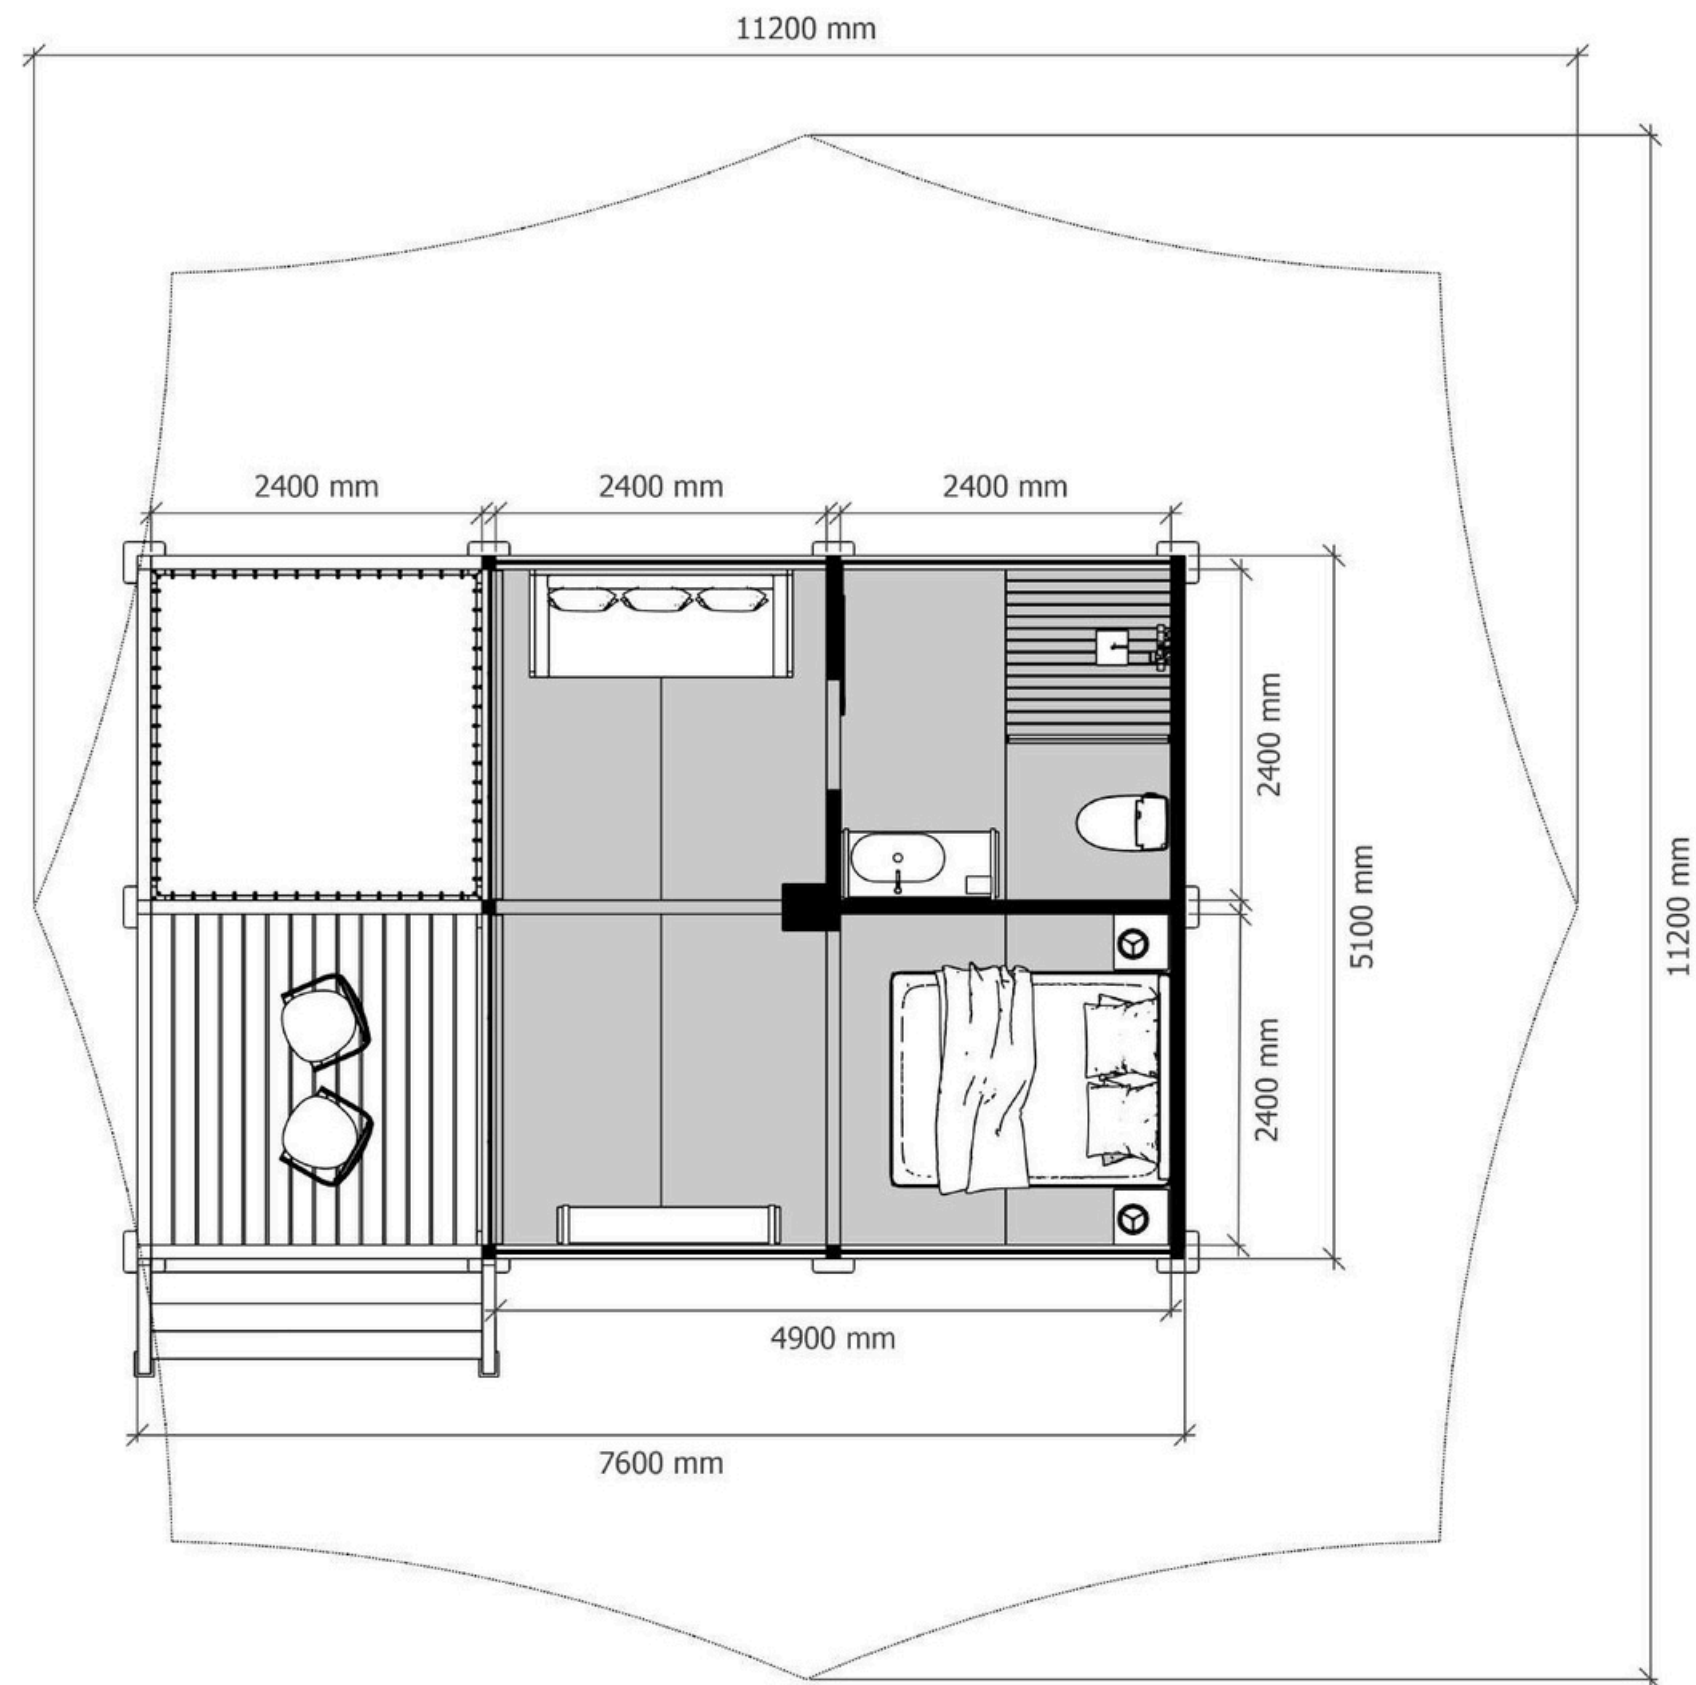

Rana 18m²

The Rana 18m² is a cantilevered Modular Organic Tenthouse that mixes luxury with a minimal eco-footprint. Its smart design includes a 9m² bedroom that promotes stunning views right from your bed. The interior is then complemented by a 4.5m² storage space that can easily transform into a kitchenette. Adjacent to this, a cozy 4.5m² en-suite brings a touch of comfort to this compact setup. Built for minimalist luxury, the Rana installs quickly and offers a standout option for eco-conscious adventurers.

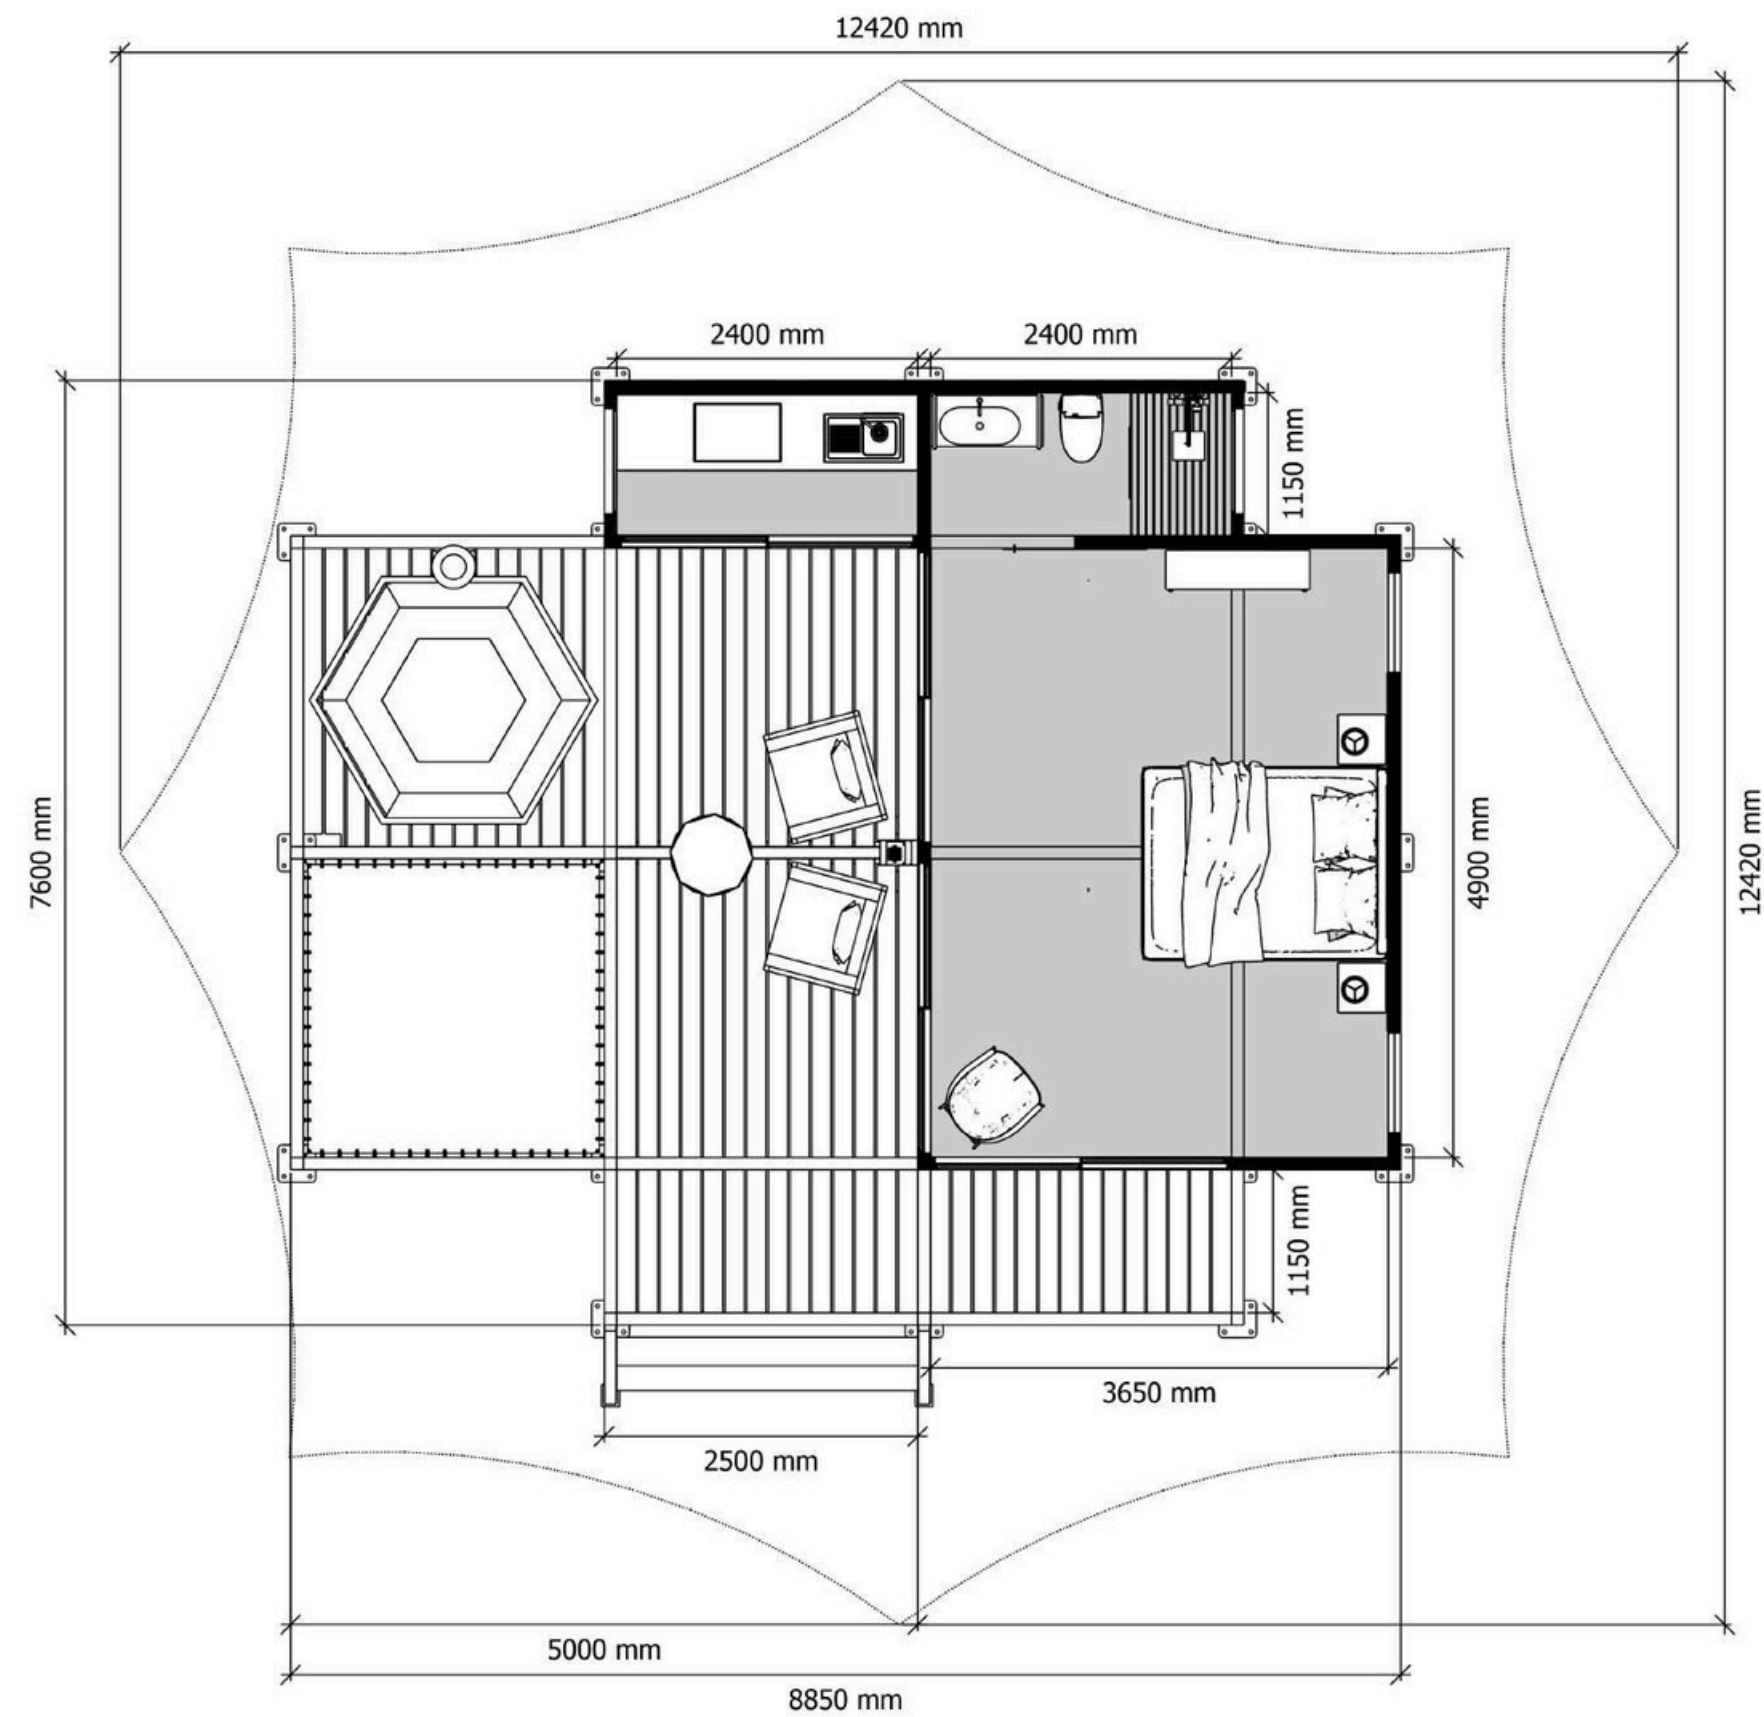

Dara 36m²

The Dara 36m² is our most spatially efficient single-pole unit, blending cozy charm with clever design. It features a 15m² bedroom-living area that flows effortlessly into a luxurious 5m² en-suite, enhanced by a generous 12m² shaded-deck for outdoor relaxation. Its distinctive single-pole tent structure creates a hut-like aesthetic, offering versatile tent manipulation by adjusting corners— perfect for those seeking a unique, adaptable eco-retreat.

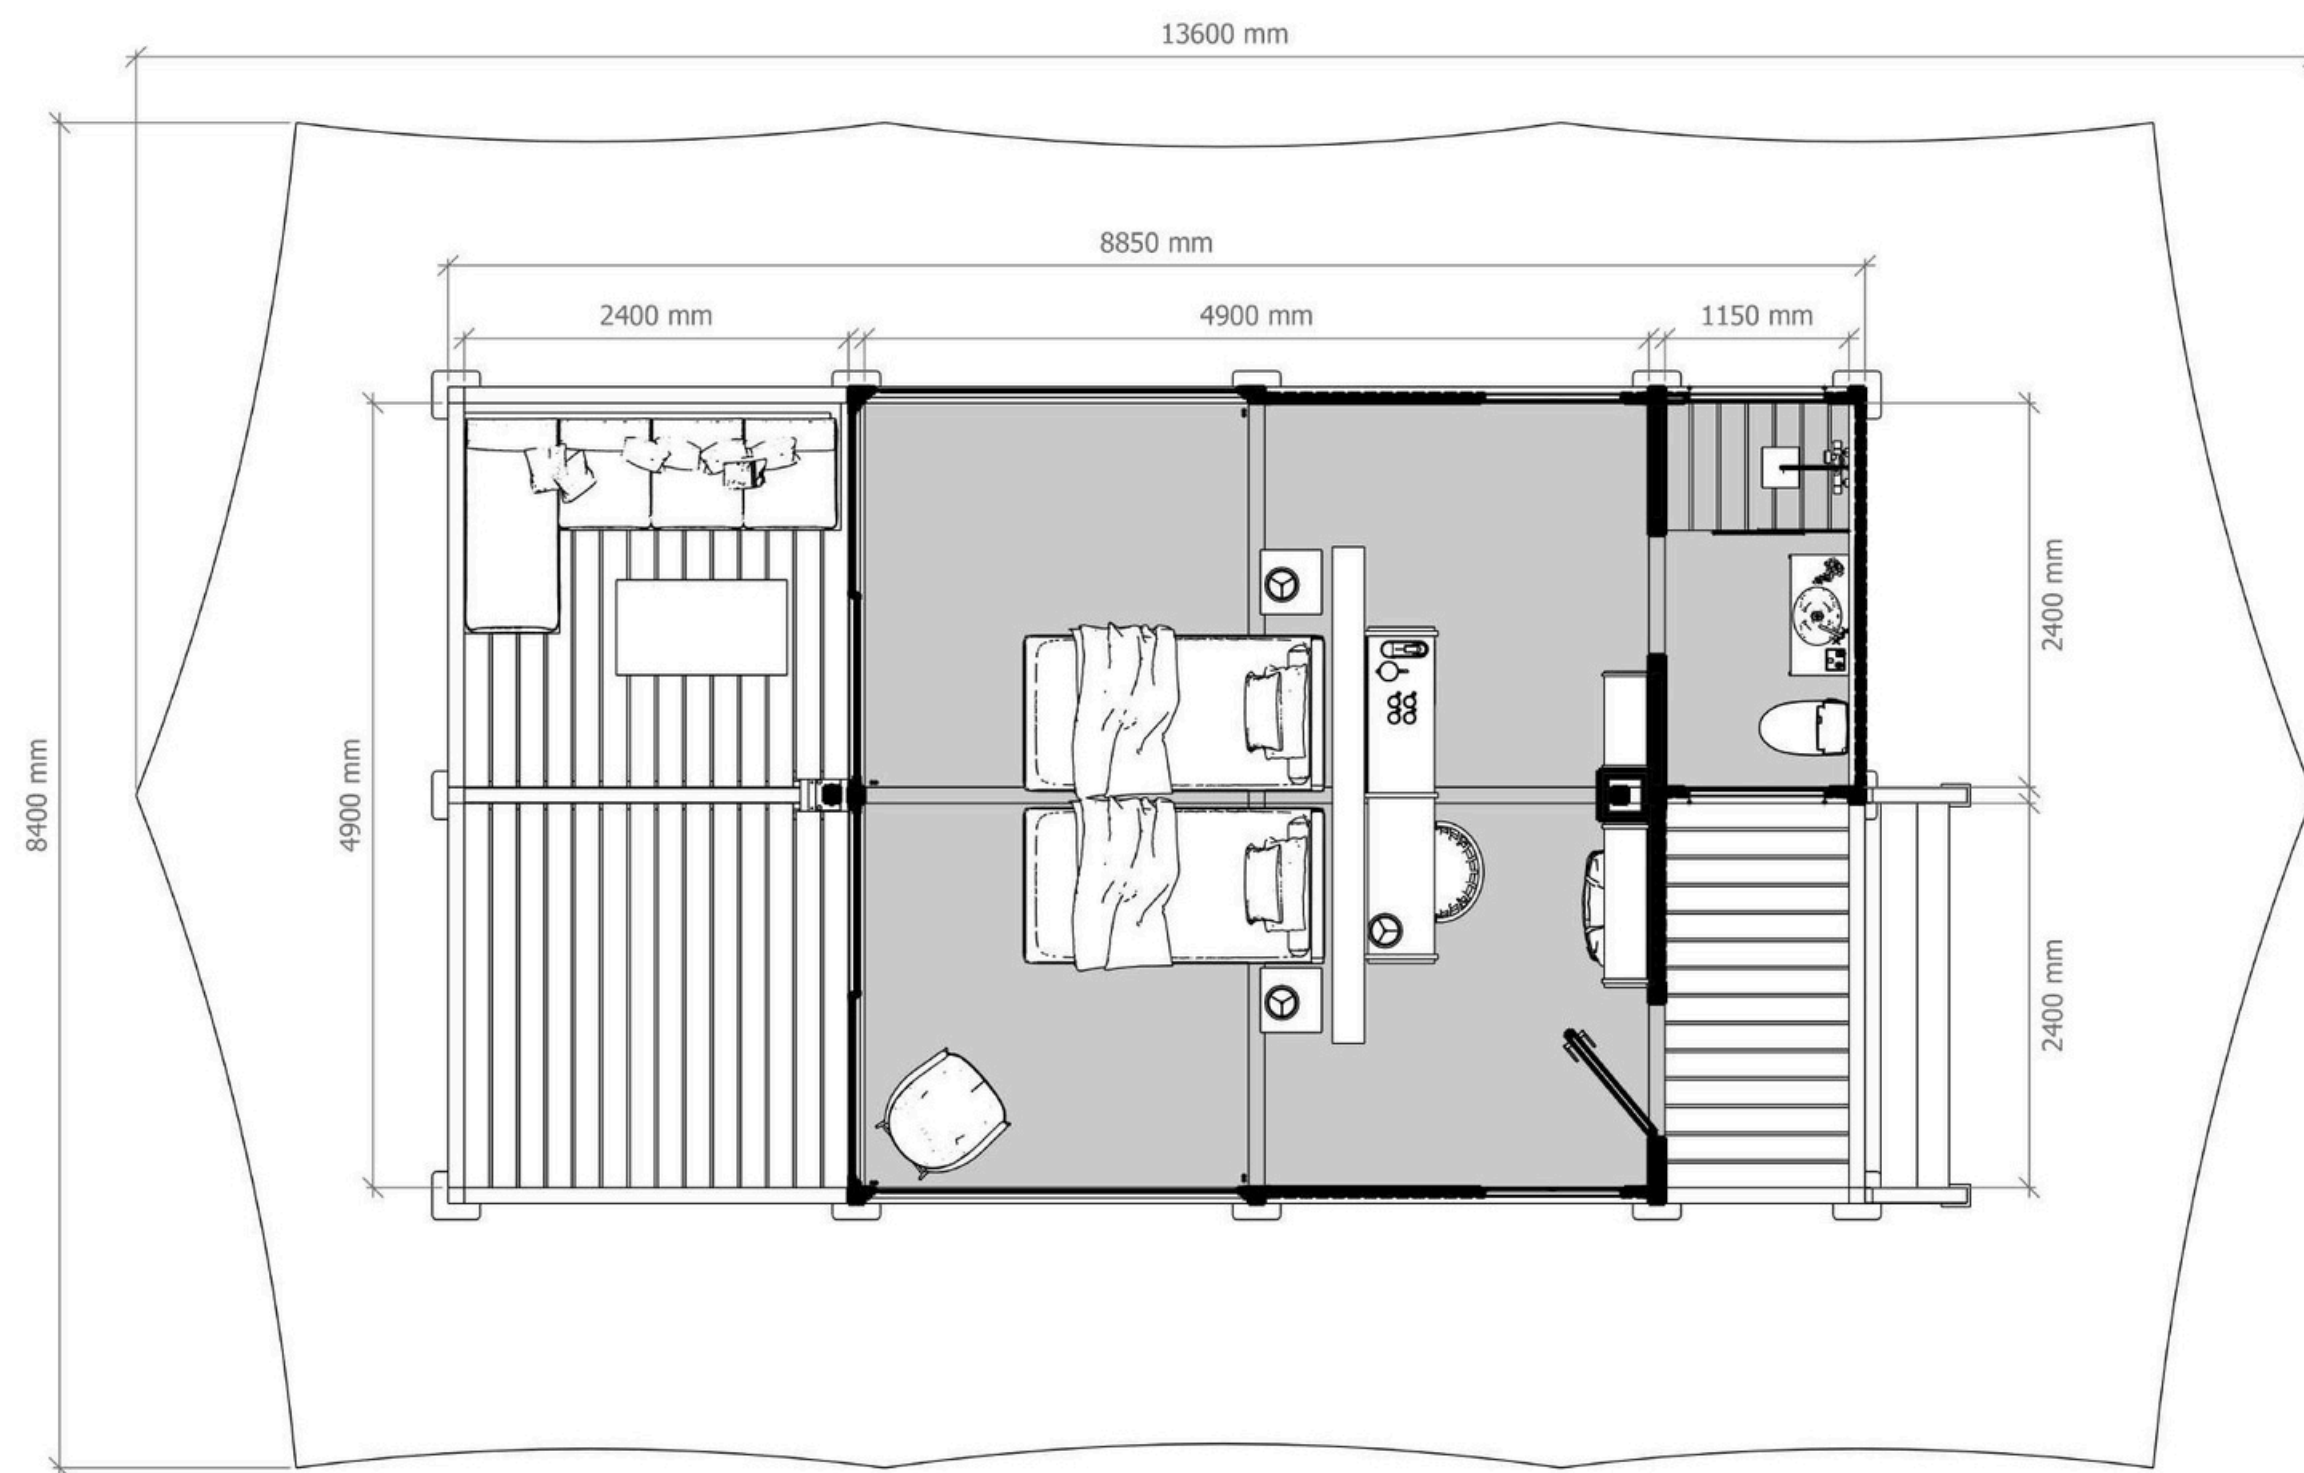

Dara 42m²

The Dara 54m² is our go-to self-catering solution, designed with a unique L-shaped floorplan that doubles as a windbreak and privacy shield for its expansive 18m² deck. Inside, a spacious 16m² bedroom adapted to your needs. This is then adjacent to a sleek 3m² en-suite. Completing the layout is a handy 3m² external kitchenette, making this Modular Organic Tenthouse the perfect blend of interior practicality and outdoor comfort.

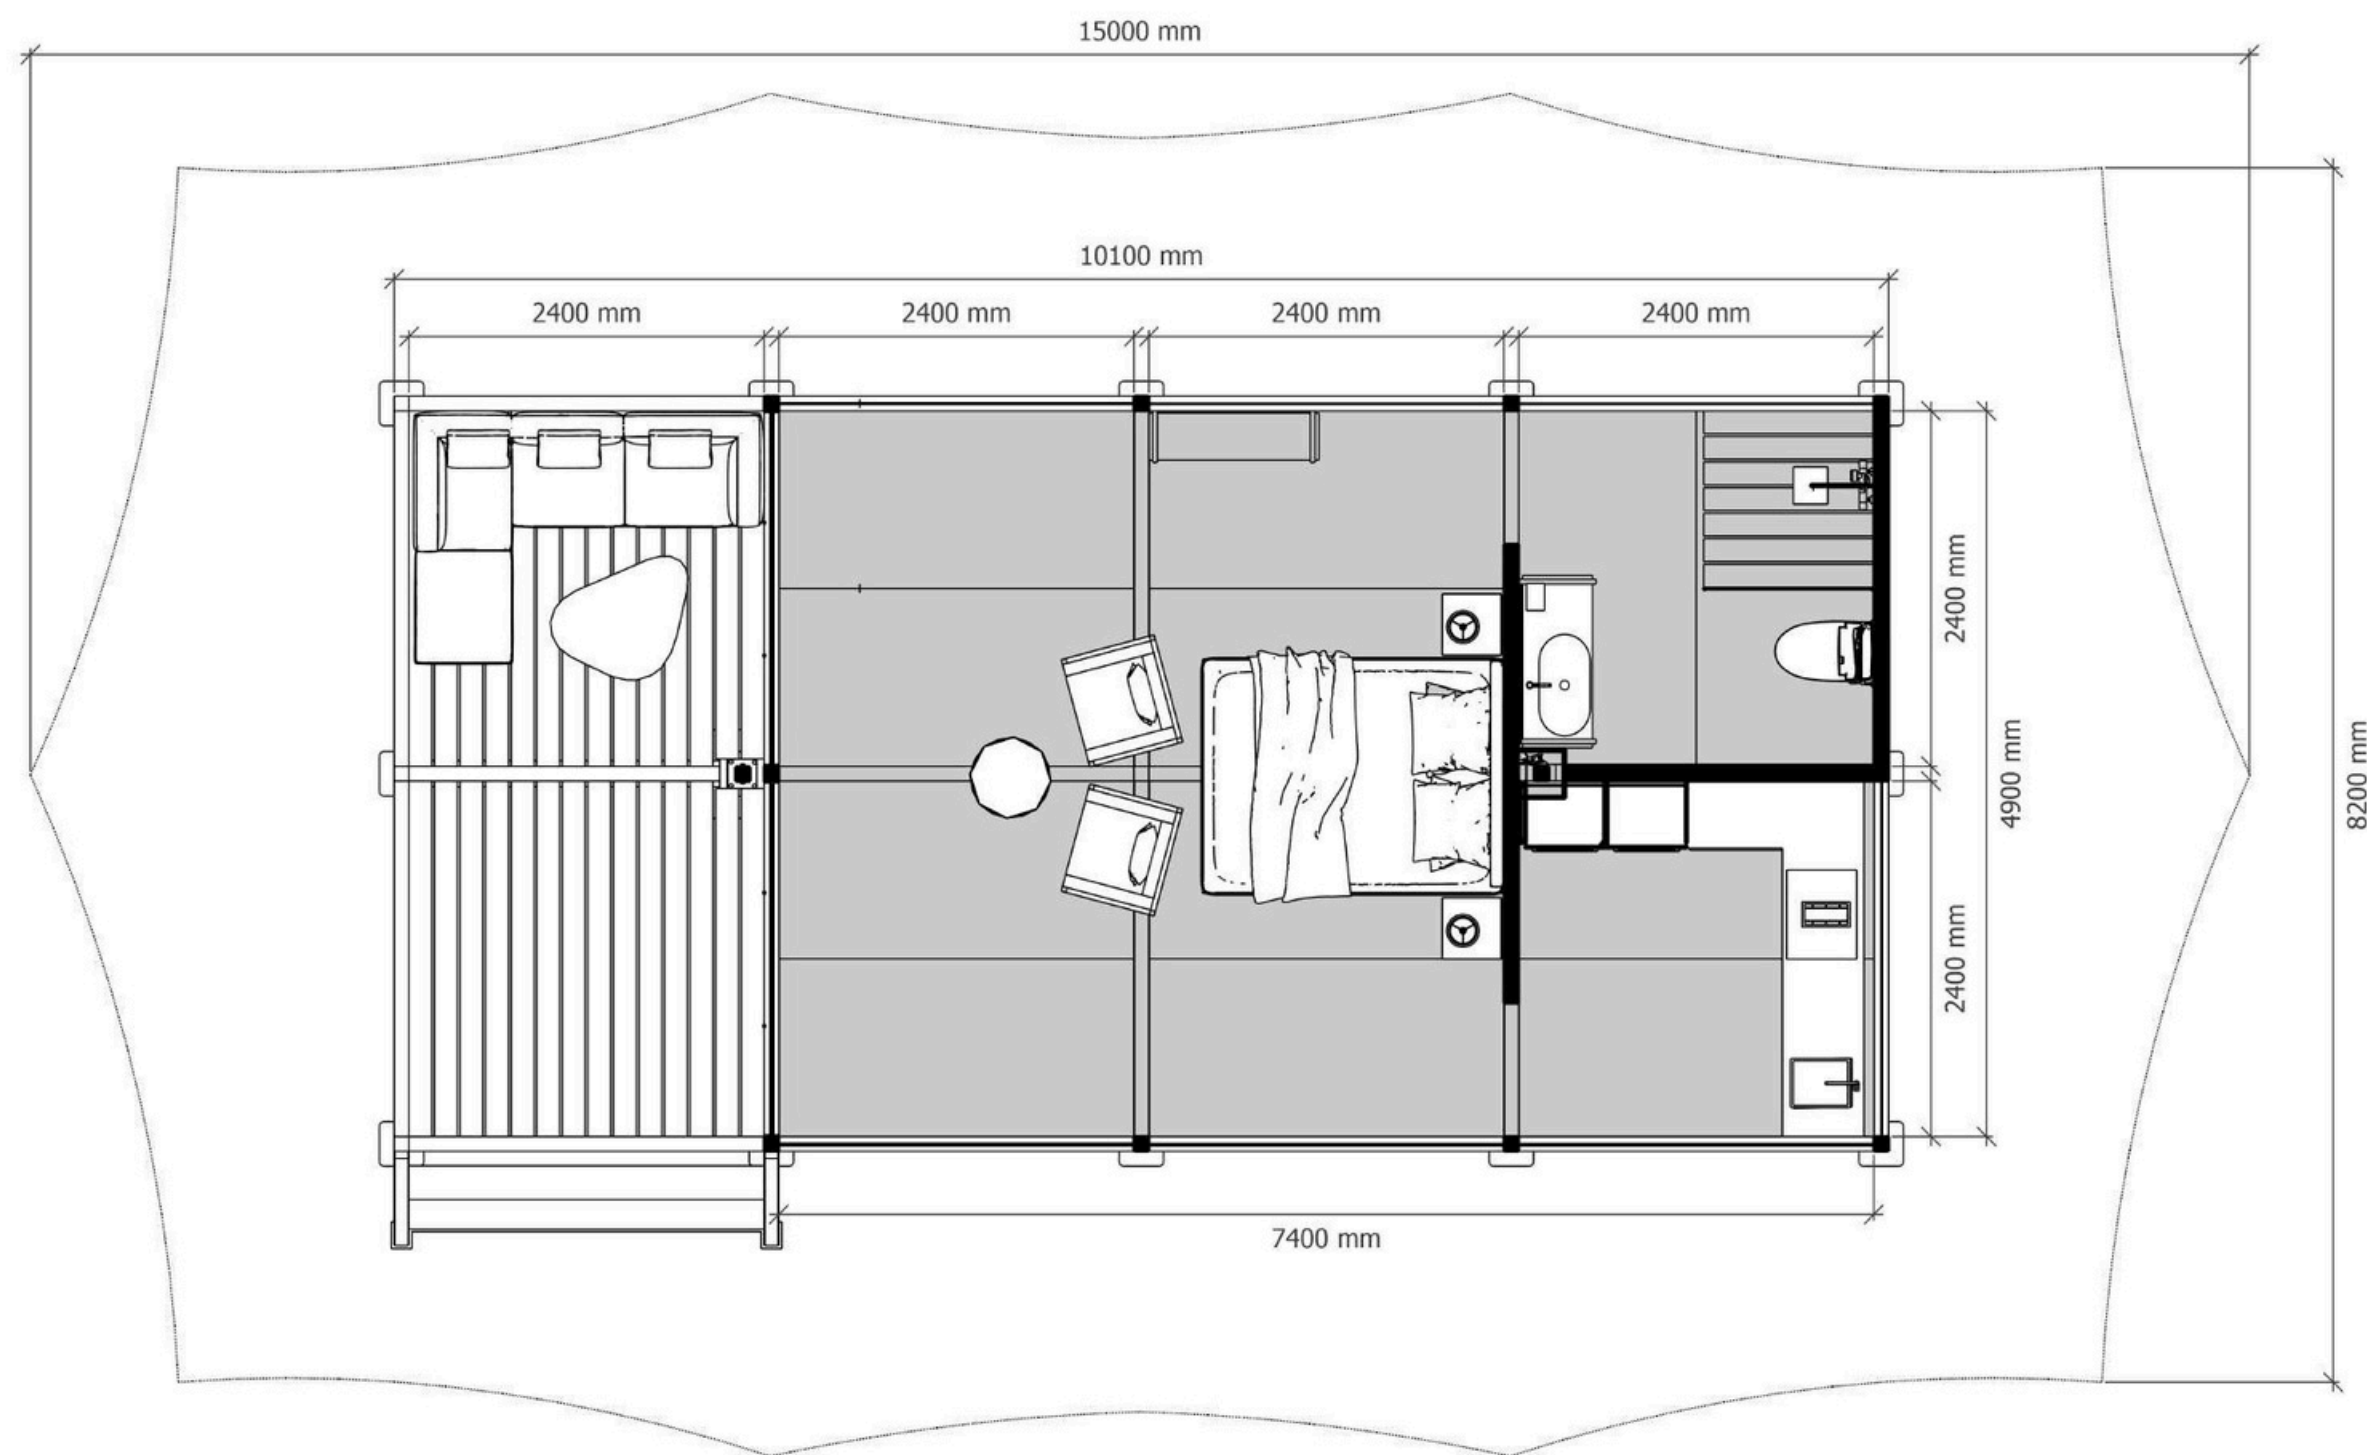

Vega 43m²

Our most popular Modular Organic Tenthouse, the Vega 43m² dazzles with its adaptable design, featuring 1.15m x 2.4m modular add-ons. This 43m² retreat boasts a spacious 25m² open-plan bedroom area, flowing into a shaded 12m² deck and a 3m² entrance landing deck behind the bedroom. A cozy 3m² en-suite adds a touch of luxury, all nestled under a vast 105m² stretch tent. Perfect for eco-luxe living, it's a versatile favorite for those craving flexibility and style.

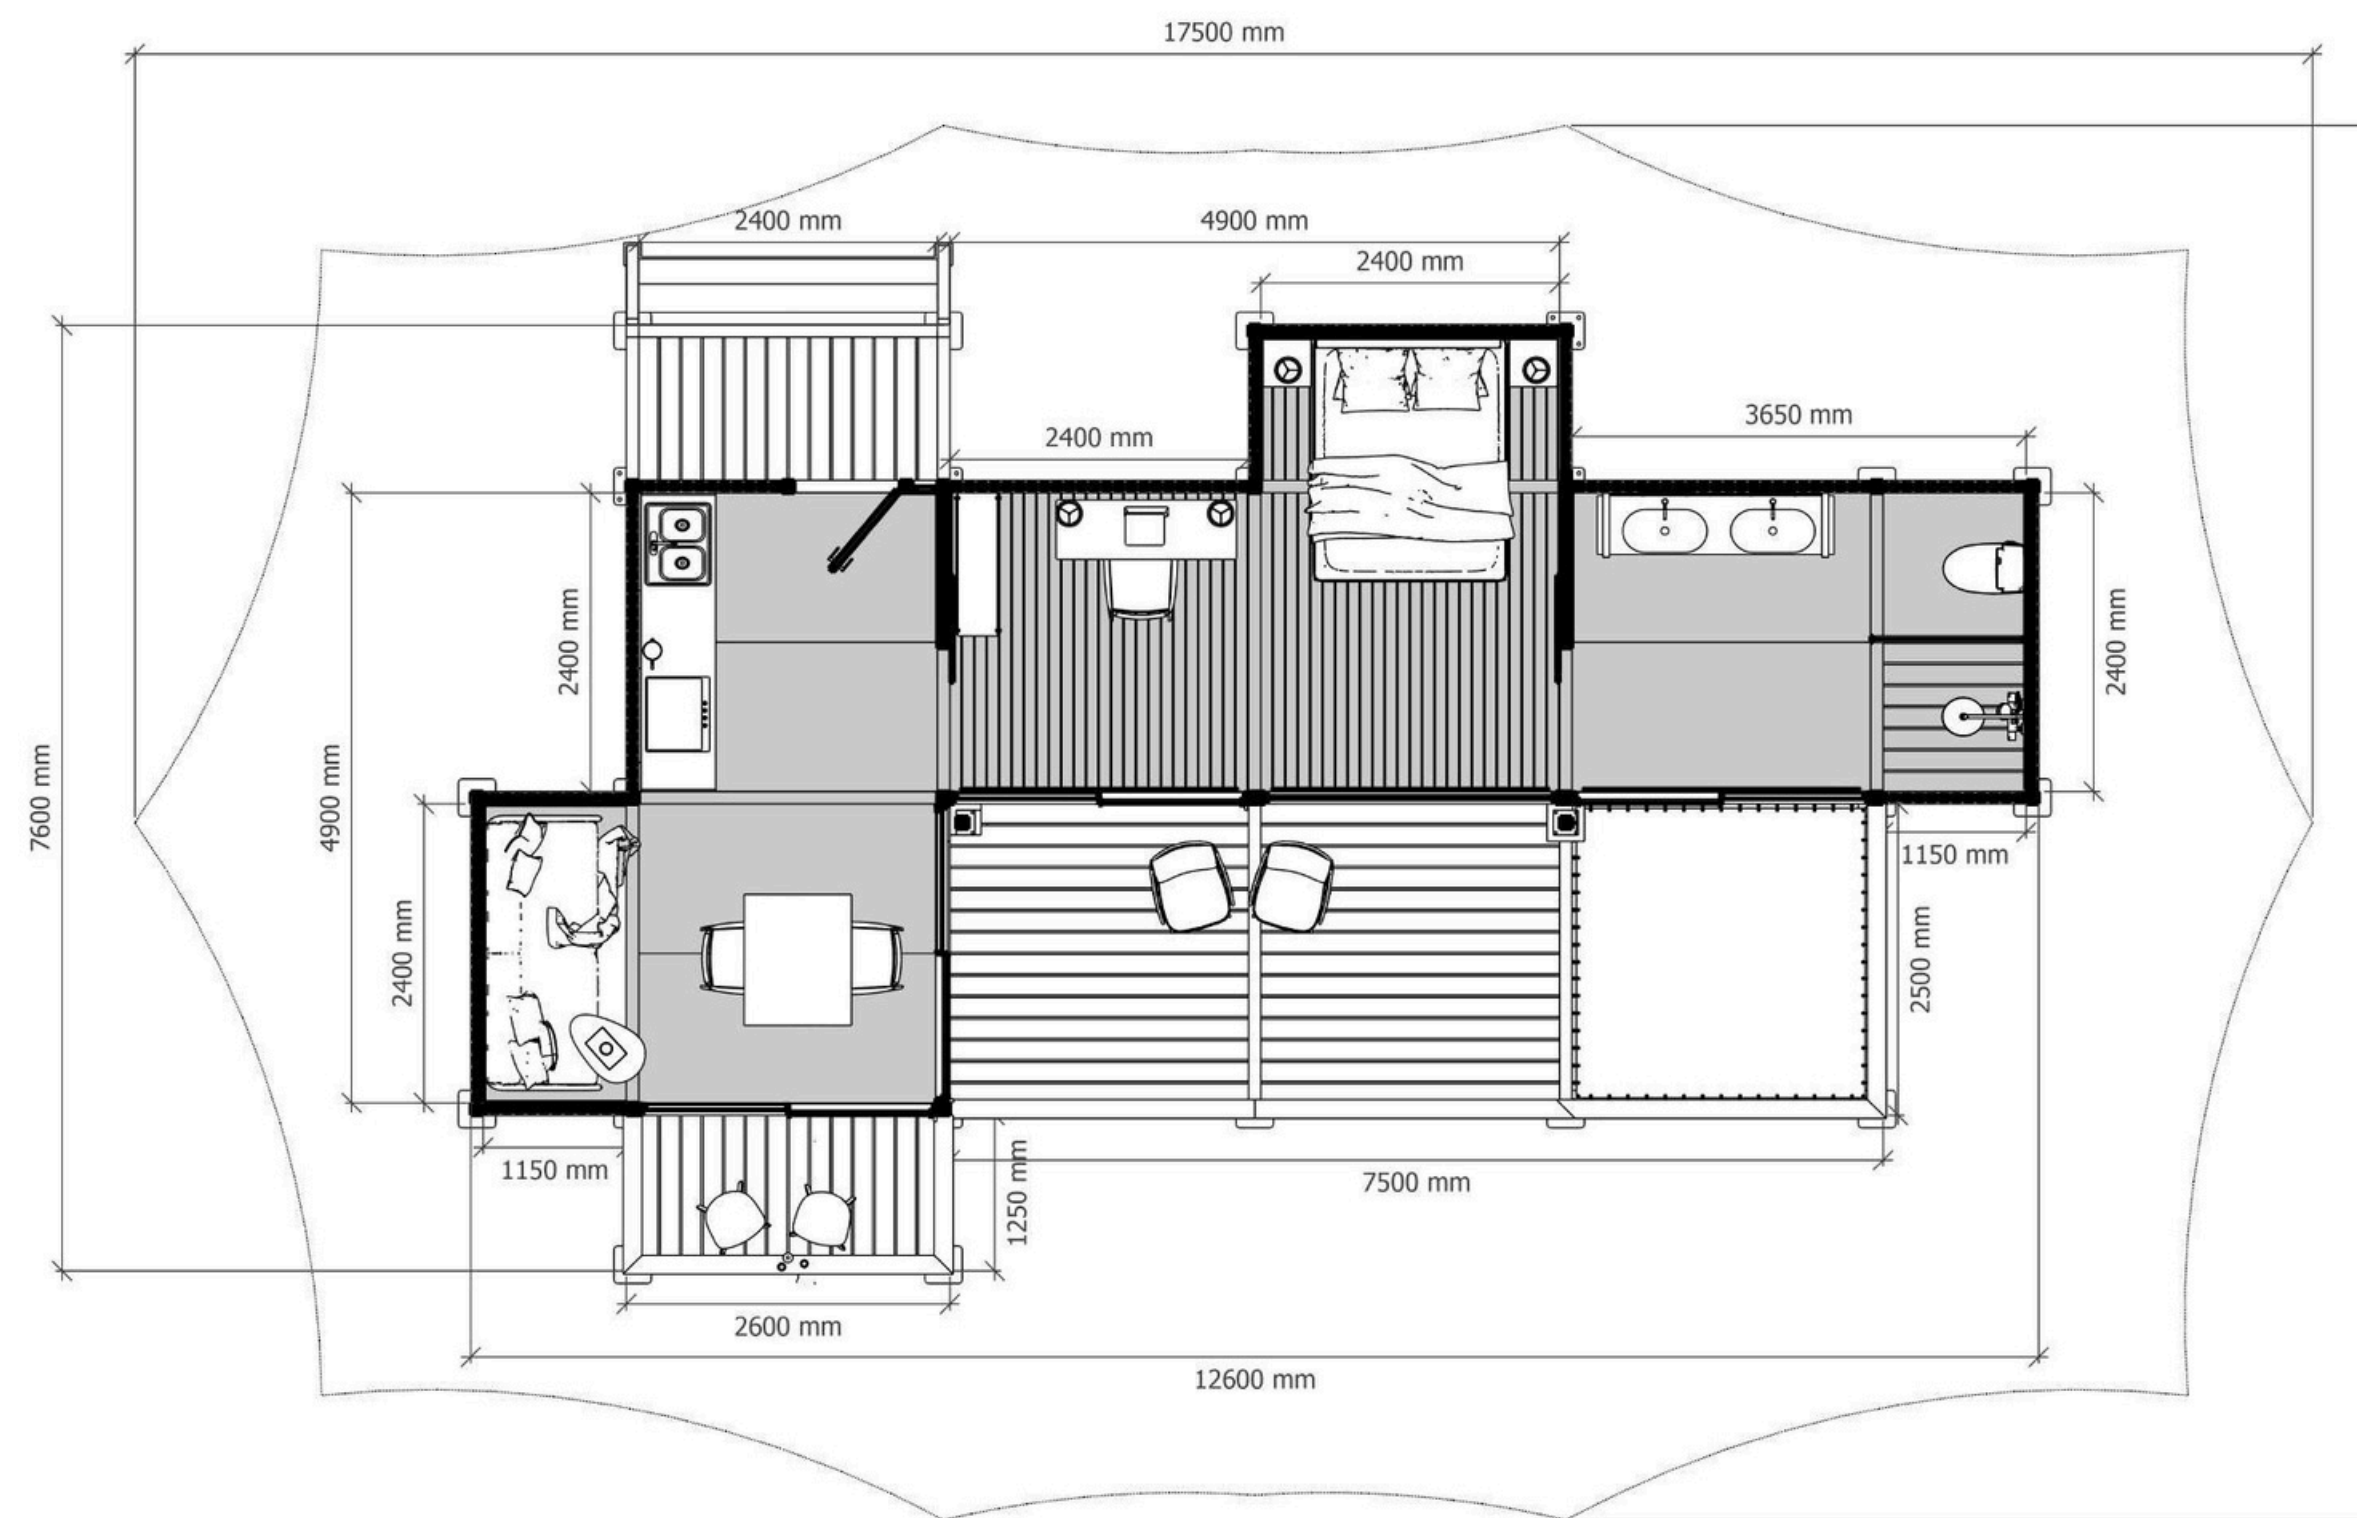

Vega 50m²

The Vega 50m² elevates eco-luxe living with a 24m² open-plan bedroom and living space, seamlessly joined by a 5m² en-suite and a 5m² kitchenette. A 12m² shaded deck extends the experience outdoors, all sheltered under a grand 13m x 8m stretch tent. Spacious and stylish, it's the perfect blend of comfort and versatility for eco-enthusiasts.

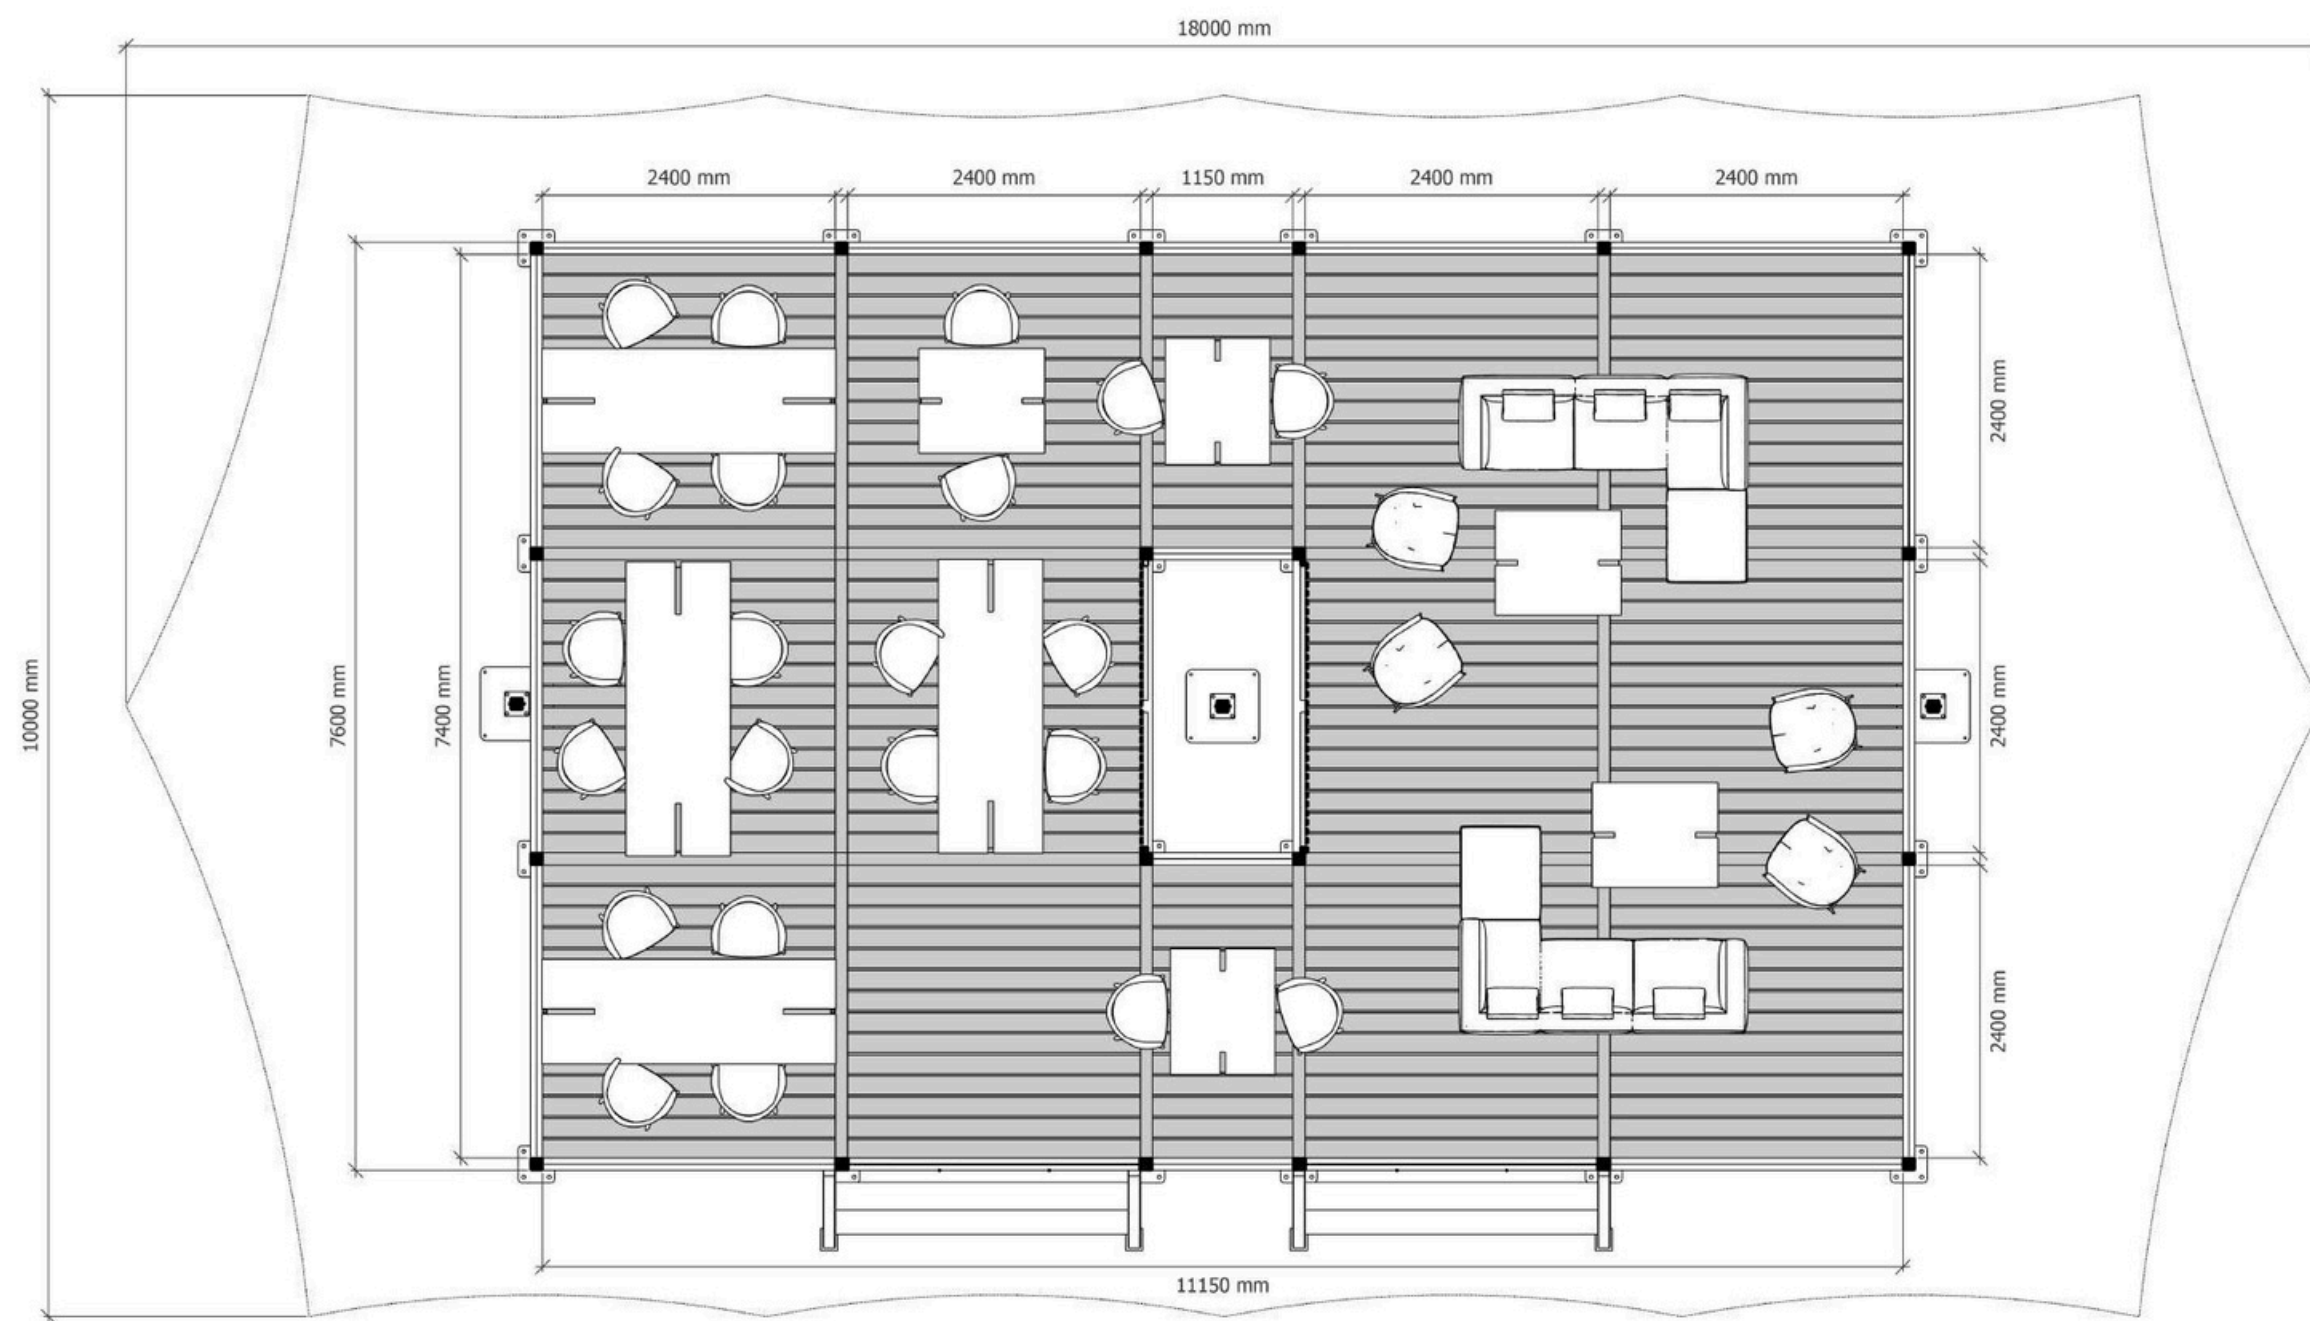

Vega 65m²

Our most luxurious self-catering single-bedroom Modular Organic Tenthouse, the Vega 65m² blends elegance with eco-conscious design. A 18m² kitchen/living space flows into a 15m² bedroom, thoughtfully tucked away to maximize stunning views, complemented by a spacious 9m² en-suite. Its L-shaped floorplan enhances the 18m² sheltered deck, creating a seamless indoor-outdoor retreat. This unique getaway is enveloped by an 11.2m x 17.5m double-pole stretch tent, perfect for upscale eco-escapes.

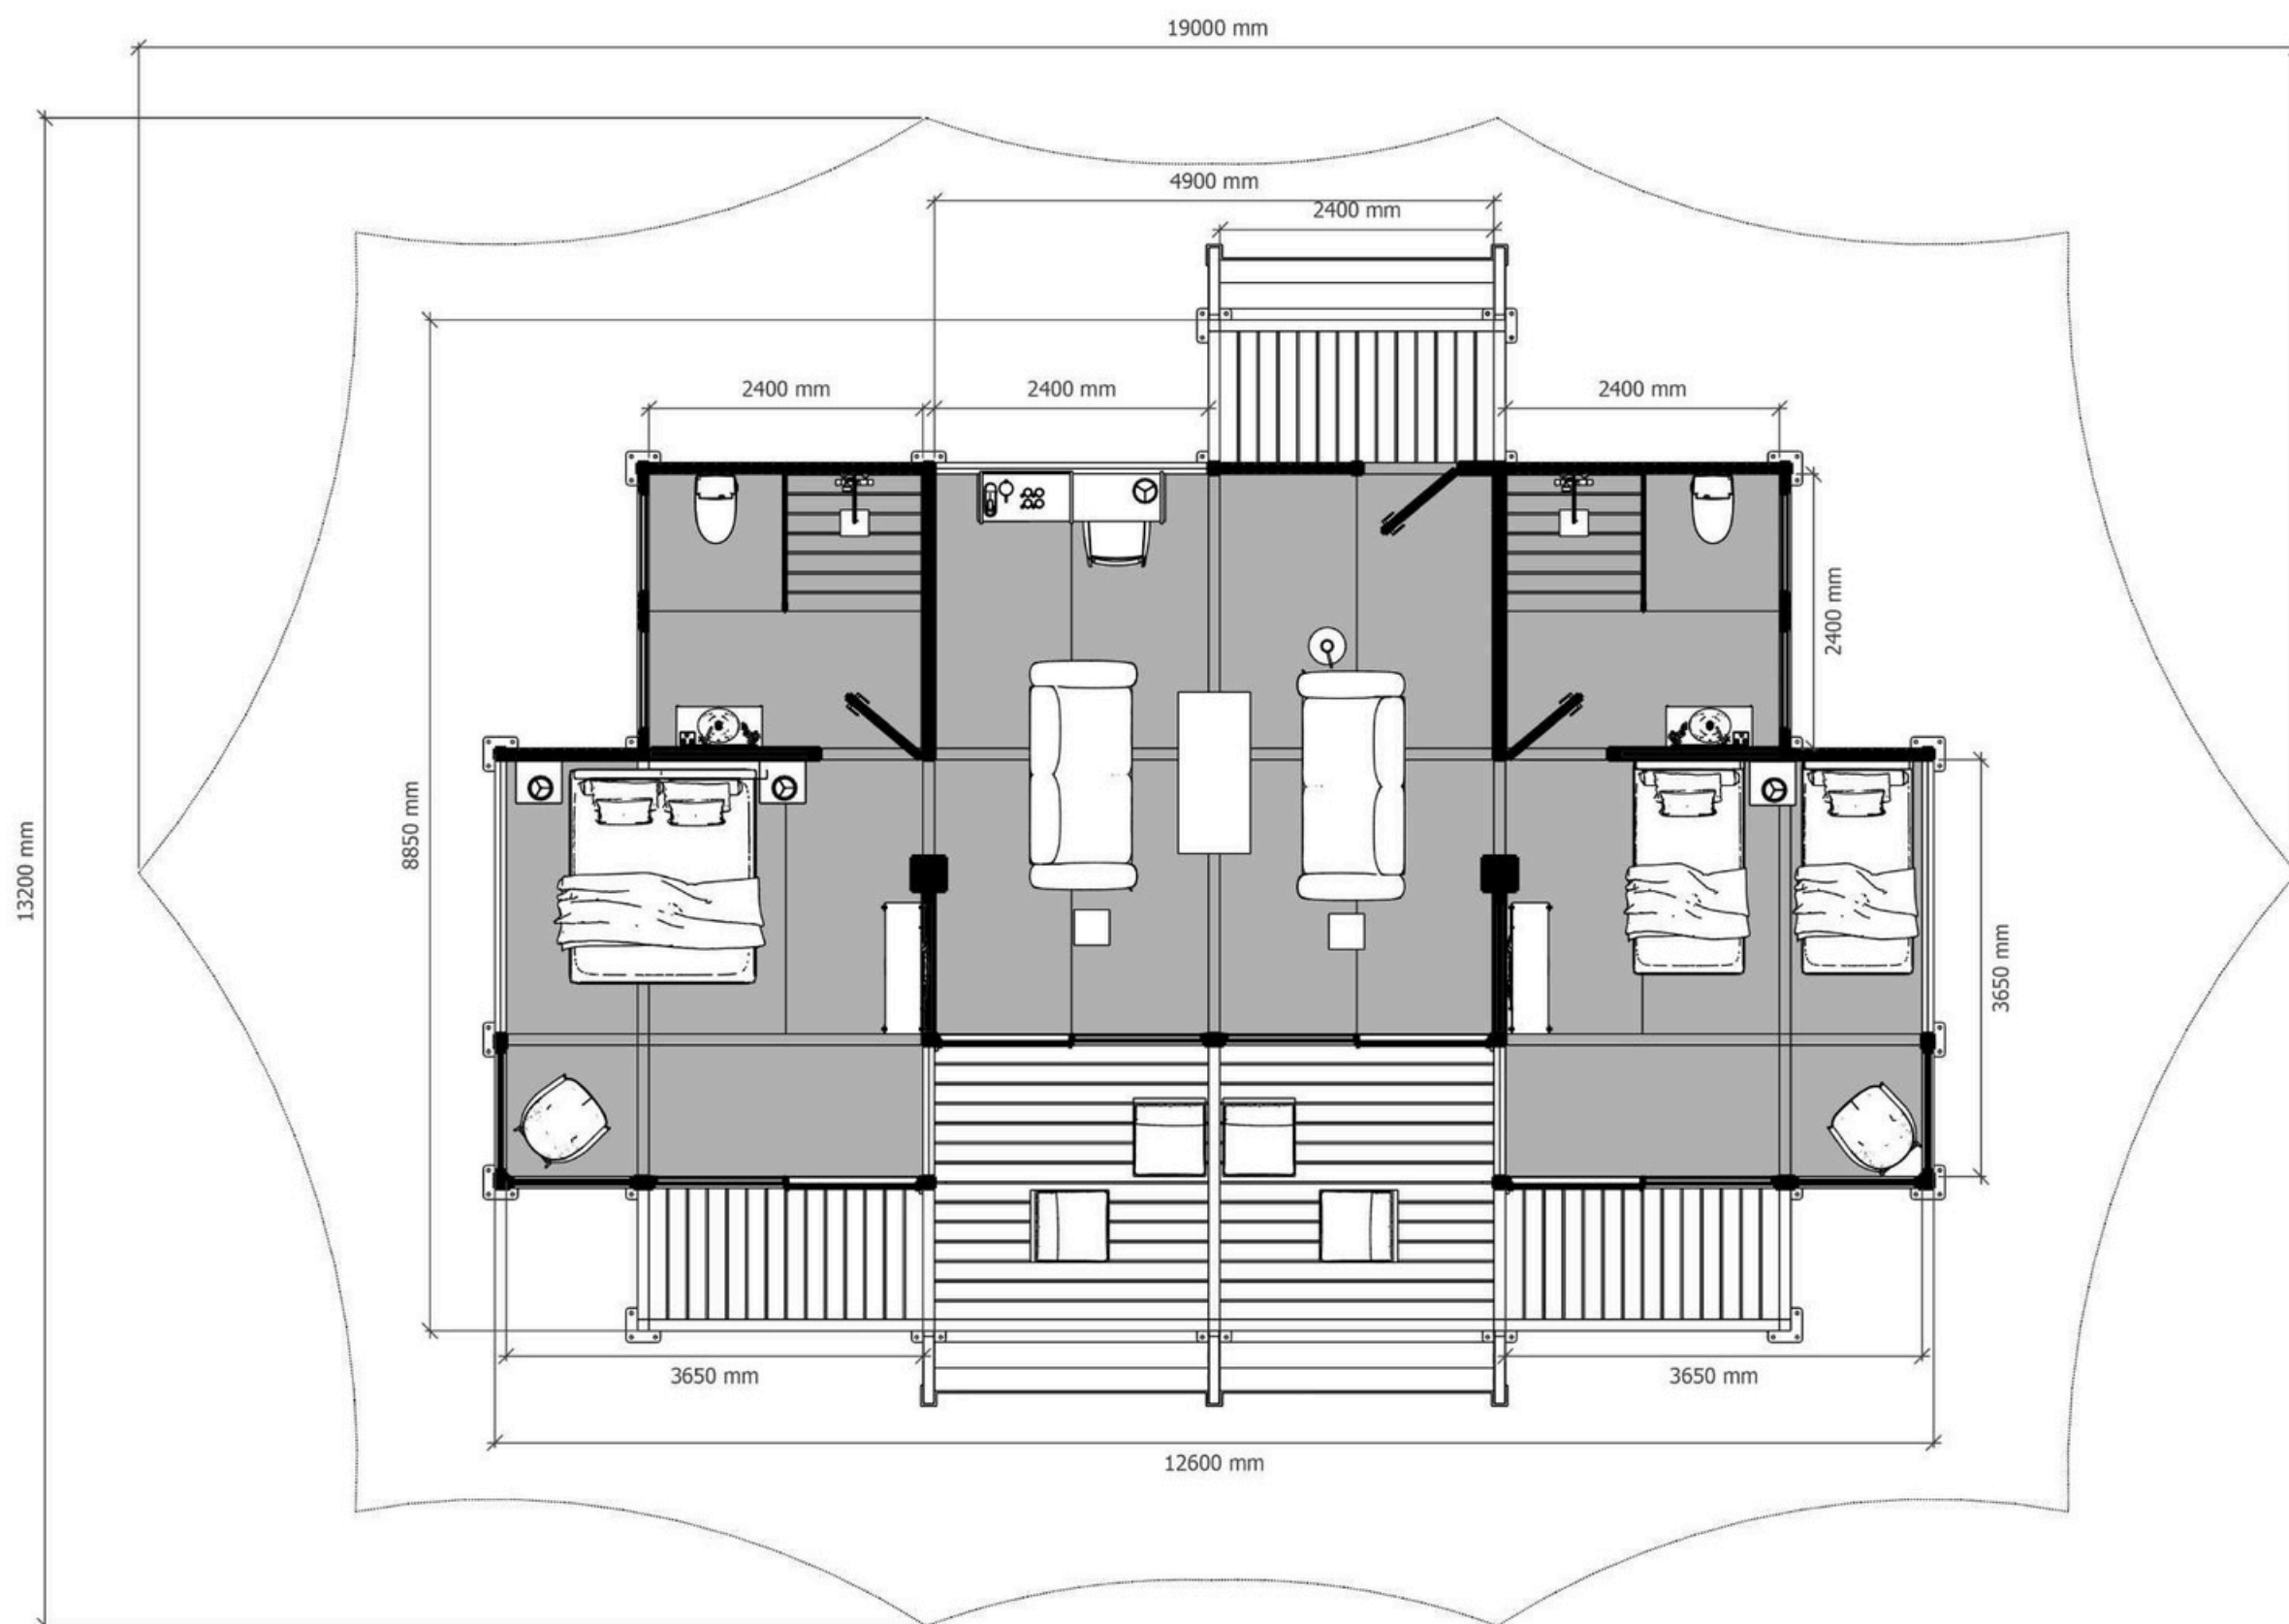

Stellan 80m²

The Modular Organic Tenthouse Stellan 80m² is our answer to pop-up restaurants or vibrant communal hubs. Its striking three-pole design creates a tiered aesthetic while delivering 80m² of open-plan space, perfect for gatherings, dining, or events. Spacious and versatile, it sits beneath a grand 180m² stretch tent, making it an eco-friendly centerpiece built to impress.

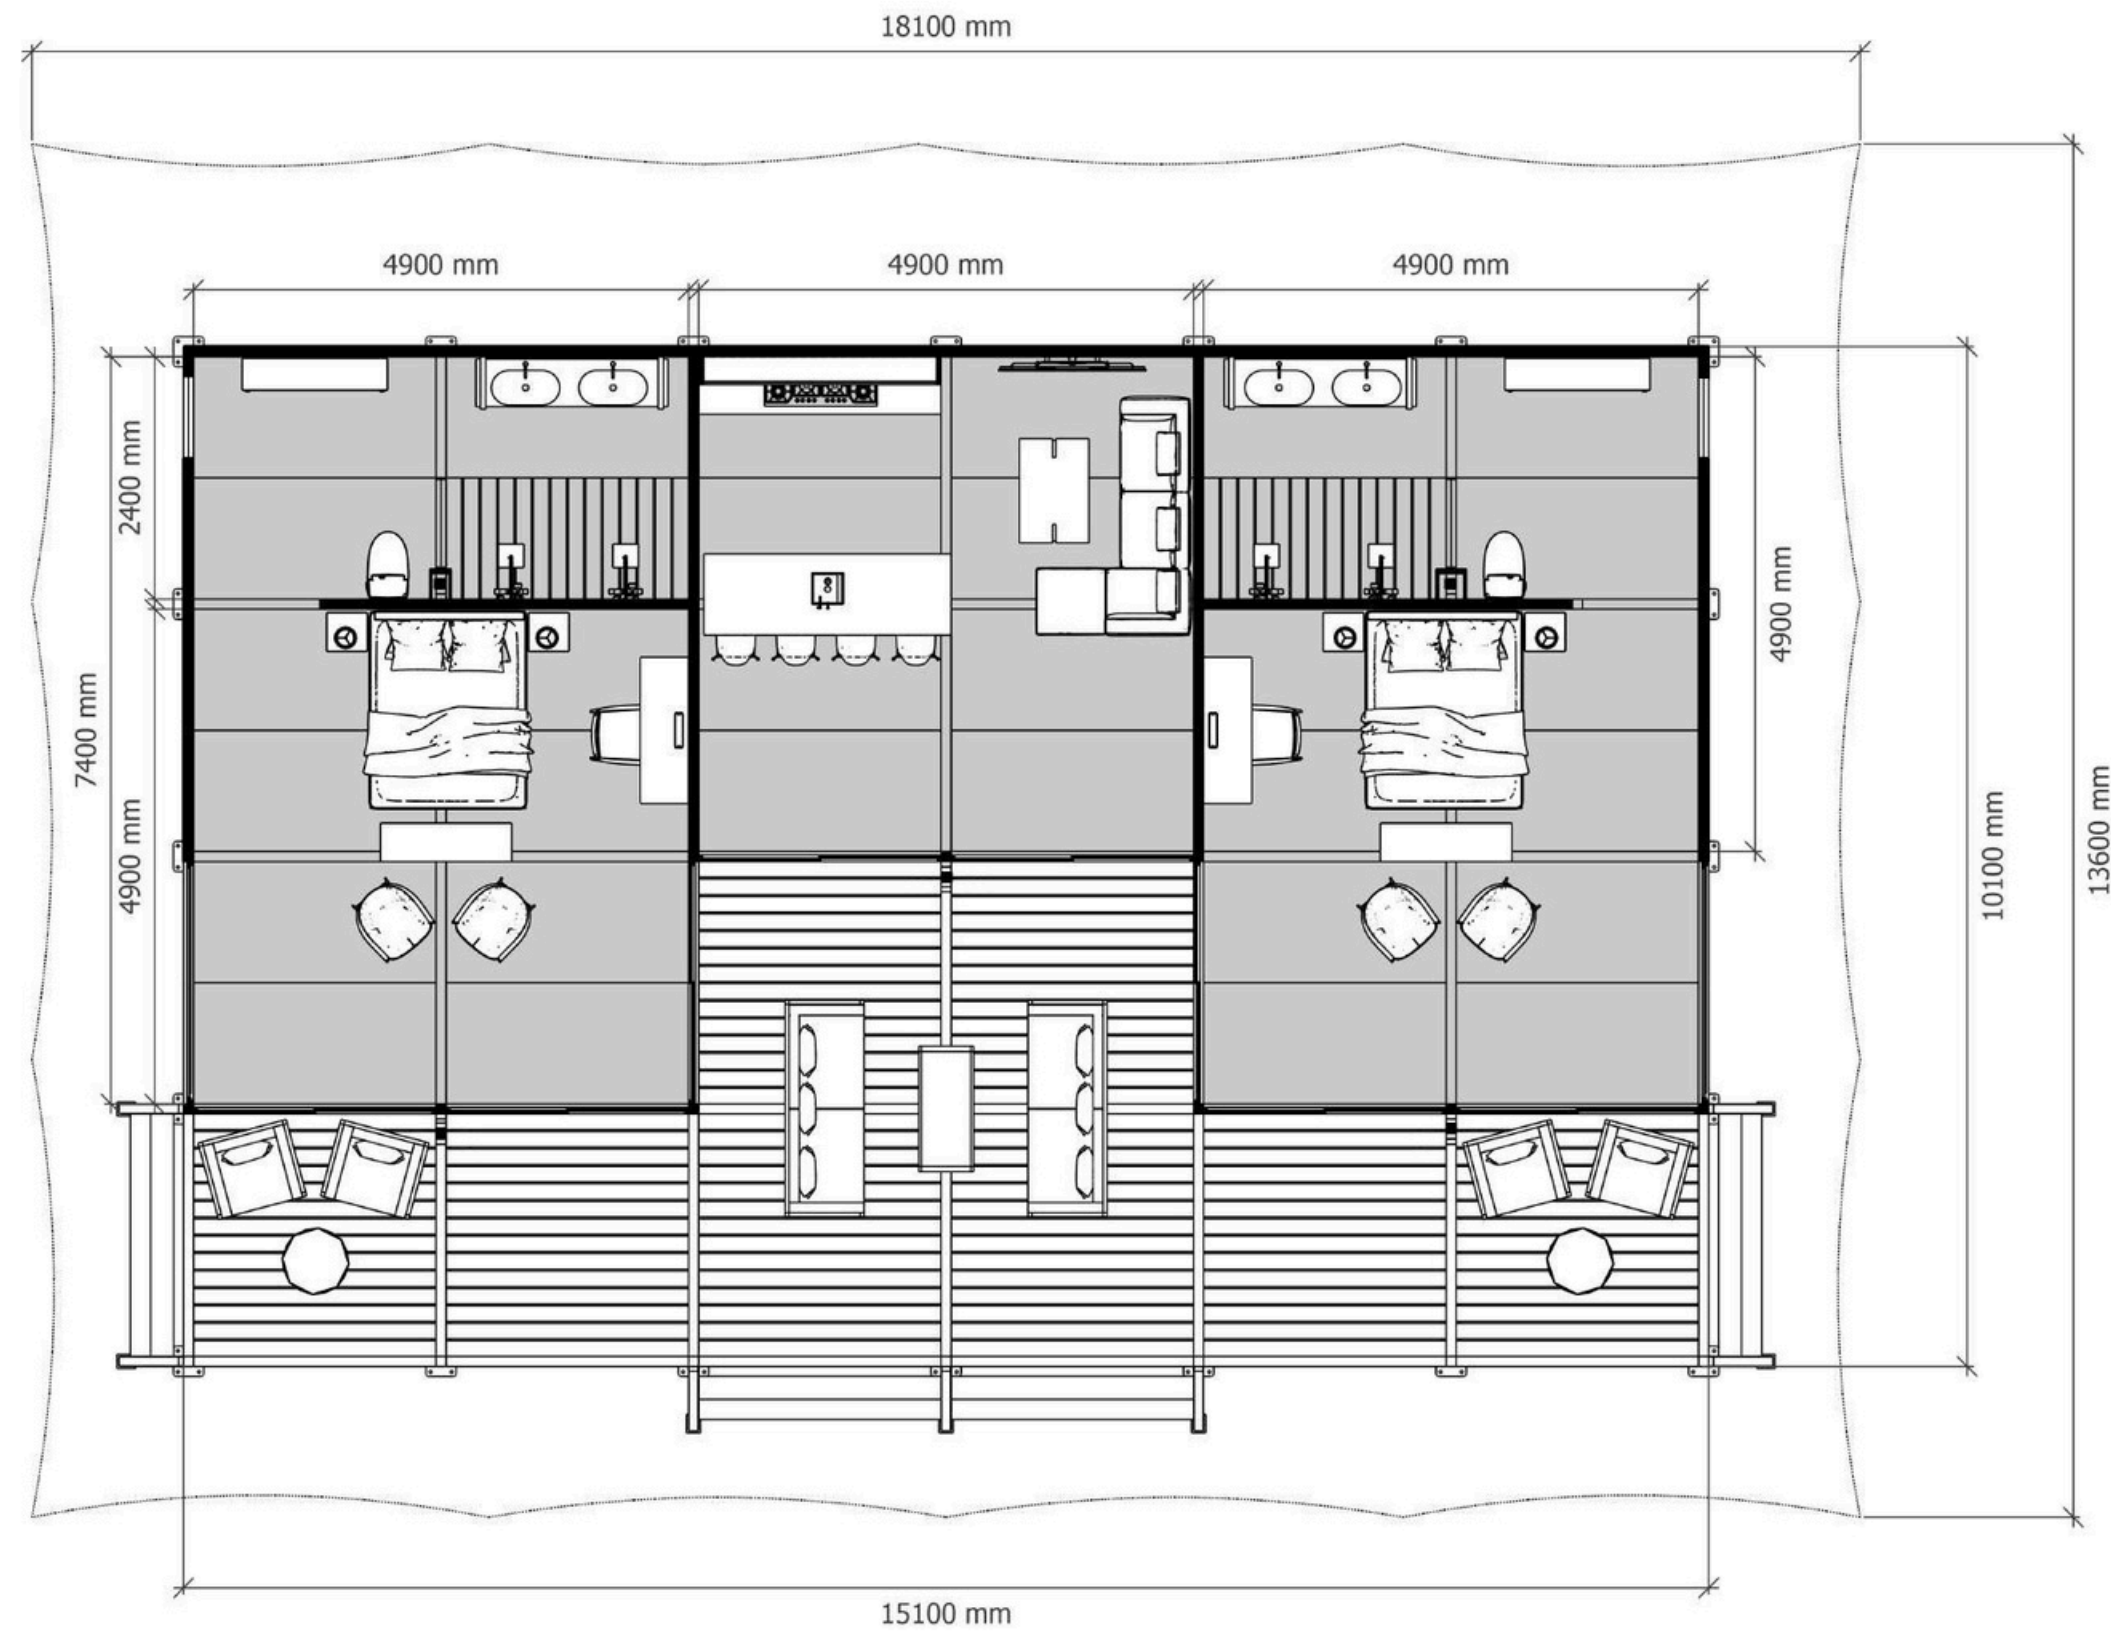

Vega 90m²

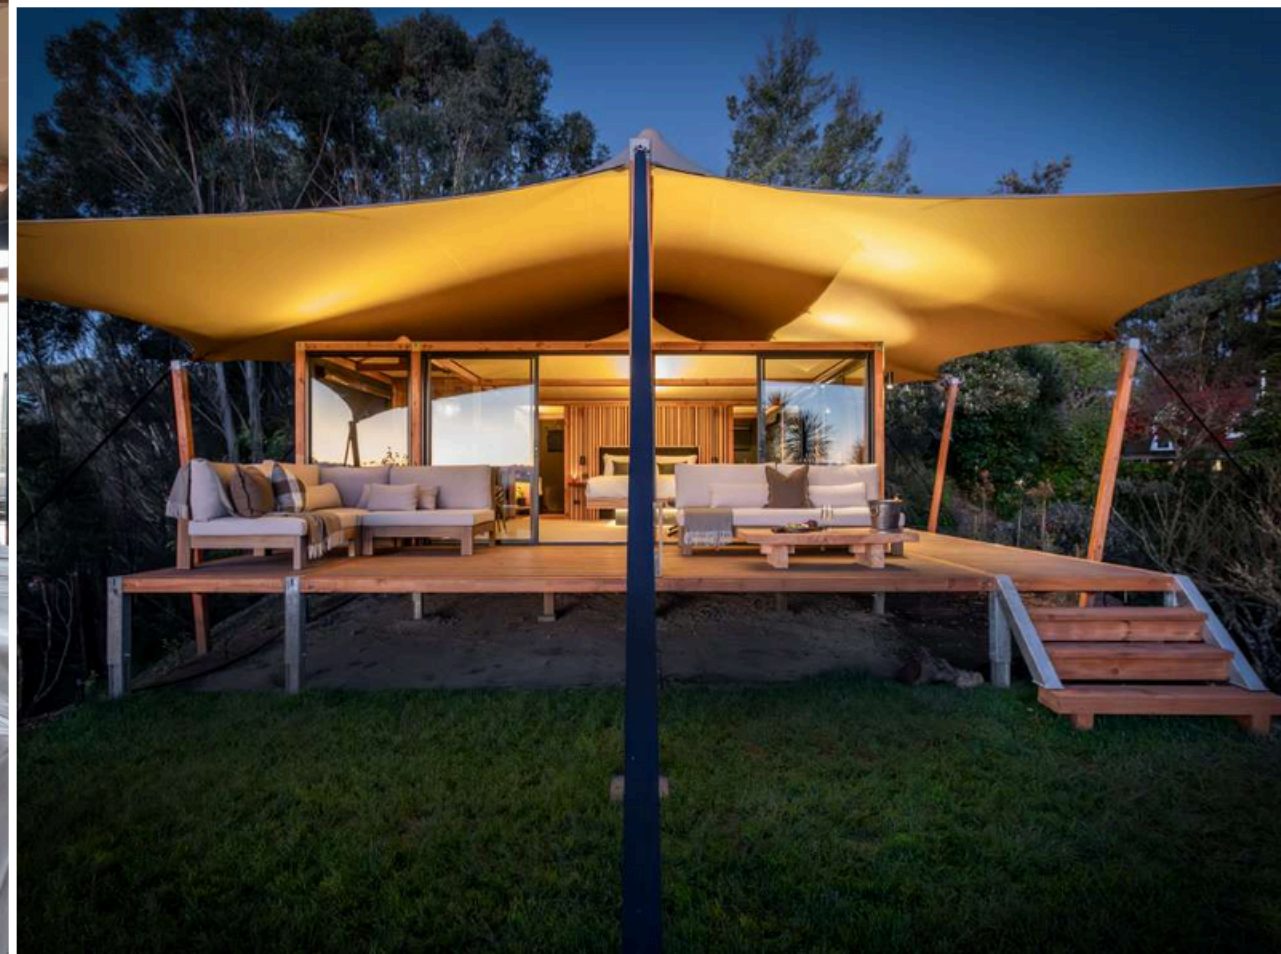

Our most sought-after two-bedroom Modular Organic Tenthouse, the Vega 90m² blends spatial efficiency with luxury. A 24m² central anchor space flows into two 13m² bedrooms, each with its own 5m² en-suite. Perfect for families, this unit connects to an 18m² shaded deck, offering a stylish and spacious eco-retreat.

Stellan 153m²

Our largest and most luxurious double-bedroom Modular Organic Tenthouse, the Stellan 153m² offers unmatched elegance. Two 24m² bedrooms, each with a 12m² en-suite, connect to a 24m² central communal space. A sprawling 50m² sheltered deck ties it all together, all beneath a grand 5 Pole 13.6m x 15.1m stretch tent. Perfect for upscale eco-living, this unit redefines spacious sophistication.
